

Bayside HVAC Products LLC

Manufactures' Representative • Serving Northern California and Northern Nevada since 1992

Air Monitor Corporation Air Flow Measurement

"Providing Air Flow Measurement and Control Since 1967"

- Airflow Measuring Stations - [Options](#)
- Airflow Measuring Probes - [Options](#)
- Outside Air Monitor, Pressure Sensors, and Meters - [Options](#)
- Electronic Transmitters & Transmitter-Controllers – [Options](#)

MSA Gas Detection Products

"A passion for safety."

- Refrigerant Leak Detection & Alarms - [Options](#)
- Garage Ventilation Control (CO and NO₂) - [Options](#)
- Toxic, Corrosive & Combustible Gas Detection - [Options](#)

Onicon Fluid Flow & BTU Meters

"Industrial quality and accuracy for HVAC applications."

- Turbine Flow Meter – Patented & easy to install - [Options](#)
- Magnetic Flow Meters, full bore & insertion - [Options](#)
- Vortex Flow meters for steam and gas - [Options](#)
- BTU Meters with network interface (LON, BACnet, N2, P1) - [Options](#)
- Natural Gas flow – monitor energy use and distribution - [Options](#)
- Ultrasonic Flow Meters – Wet and Dry Ultrasonic Meters - [Options](#)

Satec Power Meters

"Powerful Solutions"

- Multi-Tenant Submetering - Simplified Submetering - [Options](#)
- Power Meters – Diverse Power Measurement Solutions - [Options](#)
- Power Quality Meters – Monitor Power Quality - [Options](#)
- Energy Management Software - Expert Power [Options](#)

TSI Laboratory & Hospital Controls

"Improve your safety and comfort while reducing energy use."

- Fume Hood Face Velocity Controls - [Options](#)
- Lab Room Pressure Controls - [Options](#)
- Hospital Isolation Room Controls - [Options](#)
- Venturi air valves, control dampers – [Options](#)
- Network compatibility (LON, N2, Modbus, BACnet)

Bayside HVAC Products – Value Added Services

Construction Phase

- Design and Specification
- Training & Startup Assistance
- System Integration, Project Management

Post Construction

- System Certification
- Upgrade to current technology
- Repair and Tune up
 - Return your system to full performance
